

Clarendon Academy BTEC Recognition of Prior Learning (RPL) Policy

Recognition of prior learning (RPL) is available for all candidates who are able to demonstrate that they meet the assessment/grading criteria of a given internally assessed unit through knowledge, understanding or skills they already possess.

Clarendon Academy aims to:

- offer students the opportunity to be accredited for prior learning
- assure quality by following all quality assurance procedures
- protect the integrity of this centre and BTEC qualifications.

In order to do this, Clarendon Academy will:

- inform students of the opportunity for RPL
- afford suitable candidates the opportunity to submit alternative RPL evidence in place of the coursework evidence normally required for an internally assessed unit.
- assess such evidence to award points/grade against the normal assessment/grading criteria
- track and record all RPL evidence as per normal quality assurance procedures
- verify and submit the evidence as part of the normal Internal Verification procedures
- submit the evidence for certification following normal procedures, by informing the Senior Examinations Officer once the RPL decision has been confirmed by the Lead IV and Quality Nominee.
